Retalix technical documentation and the product(s) described herein are protected by one or more U.S. copyrights, patents, foreign patents, or pending applications. No part of this publication may be reproduced or transmitted into any human or computer language in any form or by any means, stored in a retrieval system, transmitted, redistributed, translated or disclosed to third parties, or de-compiled in any way including, but not limited to, photocopy, photograph, electronic, mechanical, magnetic or manual without the expressed written permission of Retalix Ltd., or its licensors, if any. All copies, so authorized, shall contain a full copy of this copyright notice.

Retalix products are licensed products. The product licenses convey the right to use only those specific products, components, modules, features and/or functions specified in the license agreement or contract. This publication may mention or reference products, components, modules, features and/or functions that are not part of a particular license agreement. The customer is not entitled to the receipt of, or use of, any other products, components, modules, features and/or functions that may be referenced in any documentation provided to customer unless additional license fees are paid and an appropriate license agreement is duly executed. Retalix's obligations with respect to its products and services are governed solely by the agreements under which they are provided.

U.S. Government Users Restricted Rights: If the Customer is a United States Government entity, the Retalix products described herein are "commercial computer software" as defined by current Federal Acquisition Regulation ("FAR"), Department of Defense Federal Acquisition Regulation Supplement ("DFAR"), or other applicable Agency regulation provisions. If the Retalix products described herein are other than "commercial computer software," then the United States Government Customer shall receive no greater than Restricted Rights, as defined in the currently applicable version of the FAR, DFAR, or other applicable Agency regulation. In the event that alternative regulatory rights allocation provisions are available to the parties, the provision which provides the Customer with the narrowest rights allocation permitted by law and regulation shall apply. For Civilian Agencies: Restricted Rights. Use, reproduction or disclosure is subject to restrictions set forth in subparagraph (a) through (d) of the Commercial Computer Software Restricted Rights clause at 52.227-19, as applicable, and the limitations set forth in standard Retalix license agreements for software and technical documentation.

This publication is furnished for informational use only and should not be construed as a commitment by Retalix. The information could include technical inaccuracies or typographical errors. Every effort has been made to make this publication as complete and accurate as possible, but it is provided "as is" without warranty of any kind either expressed or implied, including, but not limited to, the implied warranties of merchantability, fitness for a particular purpose, or non-infringement. Retalix may make improvements and/or changes in the program(s), product(s), and/or applications described in this publication at any time without notice. Due to continuous development of Retalix Ltd. products, information published in this document may become obsolete.

Third-party products, services, or company names referenced in this document may be trademarked or copyrighted by their respective owners, and are for identification purposes only.

Copyrights, trademarks and license agreements shall be governed and construed in accordance with the laws of the State of Texas and the Federal Arbitration Act, and shall benefit Retalix, its successors, and assigns.

Section 1

Fixed Issues and Enhancements

Web GUI Changes

Enhancement	Description
1. Report TRN03 Missing "buckets" for transaction types	<ul style="list-style-type: none"> ▪ Fixed ▪ The TRN03 [Voided Transactions Totals] report was incorrectly missing transaction type 'buckets'. This has been corrected and the missing types have been added to the report.
2. PNG image color correction	<ul style="list-style-type: none"> ▪ Fixed ▪ PNG images created with GIMP have color correction information that can sometimes cause rendering differences in different browsers.
3. Deleted or Invisible groups issues	<ul style="list-style-type: none"> ▪ Fixed ▪ Corrected an issue where deleted or invisible groups caused user management issues to occur.
4. Corrected ConMan login failure	<ul style="list-style-type: none"> ▪ Fixed ▪ Corrected an issue where reporting on the Set locked status of a user caused errors when logged into certain companies using the Configuration Manager.
5. When editing a user, Permission Level will be set correctly	<ul style="list-style-type: none"> ▪ Fixed ▪ Corrected an issue where, when editing a user, their "Permission Level" would be set to the first permission level instead of their current permission level, which could result in an unintended change of permission level. This has been corrected so that the user's current permission level is displayed.
6. Add setting to allow Transaction Export older than 7 days	<ul style="list-style-type: none"> ▪ Enhancement ▪ A new setting has been added that can be configured to allow given merchants the ability to temporarily retrieve a Transaction Export that is more than 7 days old. This value can be updated by support; any merchant in need of an export older than 7 days will need to contact support to enable this option temporarily.

Enhancement	Description
<p>7. Scheduled reports failing for some users</p>	<ul style="list-style-type: none"> ▪ Fixed ▪ Scheduled reports were not being properly generated for users other than Root Administrators, or users that had All Store Access. This has been corrected so that Scheduled reports are now generated properly for all users.
<p>8. Alerting can send emails with no alerts on the daily summary</p>	<ul style="list-style-type: none"> ▪ Fixed ▪ Corrected an issue where a an alert generated by a store that has been configured, but never sent up a status message (Silent Store) would cause an alert e-mail to be triggered, even if that e-mail would contain no alert data. This has been corrected so that Silent Stores no longer trigger e-mail alerts.
<p>9. IE9 report printing issue</p>	<ul style="list-style-type: none"> ▪ Fixed ▪ Corrected an issue with the RSPrintControl that prevented users running Internet Explorer 9 from successfully printing reports.
<p>10. Error when using a Management Company for the first time</p>	<ul style="list-style-type: none"> ▪ Fixed ▪ Corrected an error that occurred when using a Management Company for the first time.
<p>11. Eliminate Views from Reporting</p>	<ul style="list-style-type: none"> ▪ Enhancement ▪ To eliminate inefficient views, multiple reports have been rewritten. ▪ The following reports have been revised: <ul style="list-style-type: none"> ○ SSR01 [Store Sales Summary] ○ SSR02 [Store Sales Summary by Store and Lane] ○ SSR03 [Store Sales Summary by Store and Cashier] ○ SSR04 [Store Sales Summary by Store] ○ TRN10 [Pre-Auth / Pre-Auth Completion]
<p>12. Revise Report Control</p>	<ul style="list-style-type: none"> ▪ Enhancement ▪ The report control has been revised to no longer rely on ActiveX, so that ActiveX updates no longer interfere with reporting.

Enhancement	Description
<p>13. Remove Summary Amount from TRX03 export</p>	<ul style="list-style-type: none"> ▪ Fixed ▪ The Summary Amount column has been removed from the TRX03 report export.
<p>14. Reconfiguring a report with dates specified caused an error</p>	<ul style="list-style-type: none"> ▪ Fixed ▪ Corrected an issue where if dates were specified when generating a report, the configuration screen could generate an error and fail.
<p>15. TRN10 Report - Completions missing from the Pre-auth / Auth Completion Report</p>	<ul style="list-style-type: none"> ▪ Fixed ▪ On the TRN10 [Pre-Auth / Pre-Auth Completion] Report, Completions were incorrectly missing from the transaction list, even though the Transaction Count and Amount Totals were correct. This has been fixed so that Completions are properly displayed.
<p>16. Pre-auth/ Completion Report (TRN10) incorrect Total Amount</p>	<ul style="list-style-type: none"> ▪ Fixed ▪ Corrected an issue that could cause the Total Amount in TRN10 [Pre-Auth / Pre-Auth Completion] report to be incorrect.
<p>17. Transactions not calculated into the transaction details/totals</p>	<ul style="list-style-type: none"> ▪ Fixed ▪ Corrected an issue where the SSR02 [Store Sales Summary by Store and Lane] report treated lane number prefixed by a "0" as different from those without a leading "0" (.i.e. "01" vs. "1"). This has been corrected so that leading zeros are ignored when calculating transactions and totals for reporting.
<p>18. Transactions not calculated into the transaction details/totals</p>	<p>19. Fixed</p> <p>Corrected an issue where the SSR03 [Store Sales Summary by Store and Cashier] report treated lane number prefixed by a "0" as different from those without a leading "0" (.i.e. "01" vs. "1"). This has been corrected so that leading zeros are ignored when calculating transactions and totals for reporting.</p>
<p>20. Store Group details lists are blank</p>	<ul style="list-style-type: none"> ▪ Fixed ▪ Fixed an issue where a user whose store access has just been modified could incorrectly see a blank list of stores instead of the list of stores they should have access to.

Enhancement	Description
21. New Retalix Logo	<ul style="list-style-type: none"><li data-bbox="564 271 767 297">▪ Enhancement<li data-bbox="564 365 1460 432">▪ ServerEps & ConnectedPayments Web Clients have been updated with the new Retalix logo and kaleidoscope image.<li data-bbox="564 499 1460 566">▪ The StoreNext logo has been replaced with the new Retalix logo on the ConnectedPayments site.
